

CONSERVING THE LAND, PRESERVING THE SPIRIT

For outdoor enthusiasts, Vermont's Moosalamoo National Recreation Area is a treasure in the heart of the Green Mountain National Forest. Providing more than 70 miles of well-maintained trails – traversing rugged cliffs and gentle slopes – the 16,000 acre area provides many opportunities for hiking, mountain biking, XC skiing, snowshoeing, horseback riding, wildlife and bird watching, and more.

Take in the spectacular scenery with expansive mountain vistas, hardwood and softwood forests, waterfalls, and secluded lakes and streams. Enjoy wilderness solitude or retrace the footsteps of Robert Frost while visiting his last summer home and enjoying his poems along the mile-long Robert Frost Interpretive Trail.

The region stretches from the western slopes of the Green Mountains, where the Long Trail is located, east to Lake Dunmore, and from Scenic VT Rte 125 in the north to Rte 73 in the south.

## THANKS TO THESE LOCAL BUSINESSES

If you appreciate the beauty and accessibility of MNR, consider supporting Moosalamoo Association through an annual membership or donation. Your membership will help us protect, maintain, and improve access through projects such as building new trails, maintaining, and redeveloping existing ones. You'll also help Moosalamoo Association qualify for matching grants from federal, state, and other non-profit organizations.
